| Full Stack Web Developer |

Summary

A self-learner, driven to expand my skills in a dynamic environment, with a passion for technology and self-improvement. With a technical background, I recently graduated from Orange Coding Academy's intensive code camp on web development and have experience in technologies such as HTML, CSS, JavaScript, PHP, Databases, Laravel, React, and WordPress. During my learning journey, I have worked on many projects that helped me apply my skills in real-world scenarios. After completing the code camp, I am seeking a challenging role where I can apply my skills in web development and contribute to innovative solutions, with a commitment to continuous learning. I also work as a freelance web developer, which has helped me gain real-world experience and work with clients to meet their needs.

Core Competencies

Web Development	UI/UX Design	Adaptability
Database Management	API Integration	Team Collaboration
Version Control	Responsive Design	Time Management
Testing & Debugging	Project Management Tools	Problem Solving
